Community Involvement and Social Value

In recent months, we have been actively committed to community engagement in Camden. We partnered up with "The Little Spoon", an earth friendly ice cream supplier, and treated local residents to some delicious free ice-cream. We have also been volunteering at Castelhaven Community Centre where we spruced up the local park and contributed to the local food bank.

Our investment in the future extends beyond these endeavours, with over 22 students from local colleges participating in valuable work experience on our Camden projects.

We have various apprenticeships to offer in Electrical, Mechanical, Brickwork, Carpentry and more to our local residents who are interested in kick starting a career in construction.

These are advertised with the Kings Cross Construction Skills Centre and Good Work Camden.
