

Welcome to our newsletter, which will provide you with up-to-date information on the Central Somers Town Project.

Central Somers Town

This project consists of 34 apartments over 2 low-rise blocks with a new Community Hall.

What work have we done so far?

We have enclosed the site within a hoarding, demolished the existing Community Hall, reduced the level across the site, and established a temporary haul road into the site. We have also now installed our Cabins.

What work is coming up next month?

- Breaking out concrete obstructions in the ground which are on future pile positions, these are foundations from the site's previous use by the railway as a coal distribution yard.
- Establish a temporary platform across the site for the piling rig to work from.
- Commence piling at the end of May.

Interested in working on the project?

Apprenticeships, work experience, and local labour opportunities are available on this project. These are advertised with the Kings Cross Construction Skills Centre and Good Work Camden. Please register interest by email to:

kccsc@camden.gov.uk
jobhub@camden.gov.uk

We are offering work experience to anyone considering a career in construction, please contact **Monica Paul** on monica.paul@morgansindall.com
