June 2010

Pedestrian and Streetscape Improvements Churchway

We are seeking your views on the Council's proposals to reduce speed and improve pedestrian safety in relation to the redevelopment of former Elizabeth Garrett Anderson Hospital, at the junction of Grafton Place and Churchway.

The proposals, shown on the attached drawing, include the introduction of traffic calming in the form of a raised entry treatment on Churchway at the junction of Churchway and Grafton Place. We are also re-paving the pavements surrounding the site.

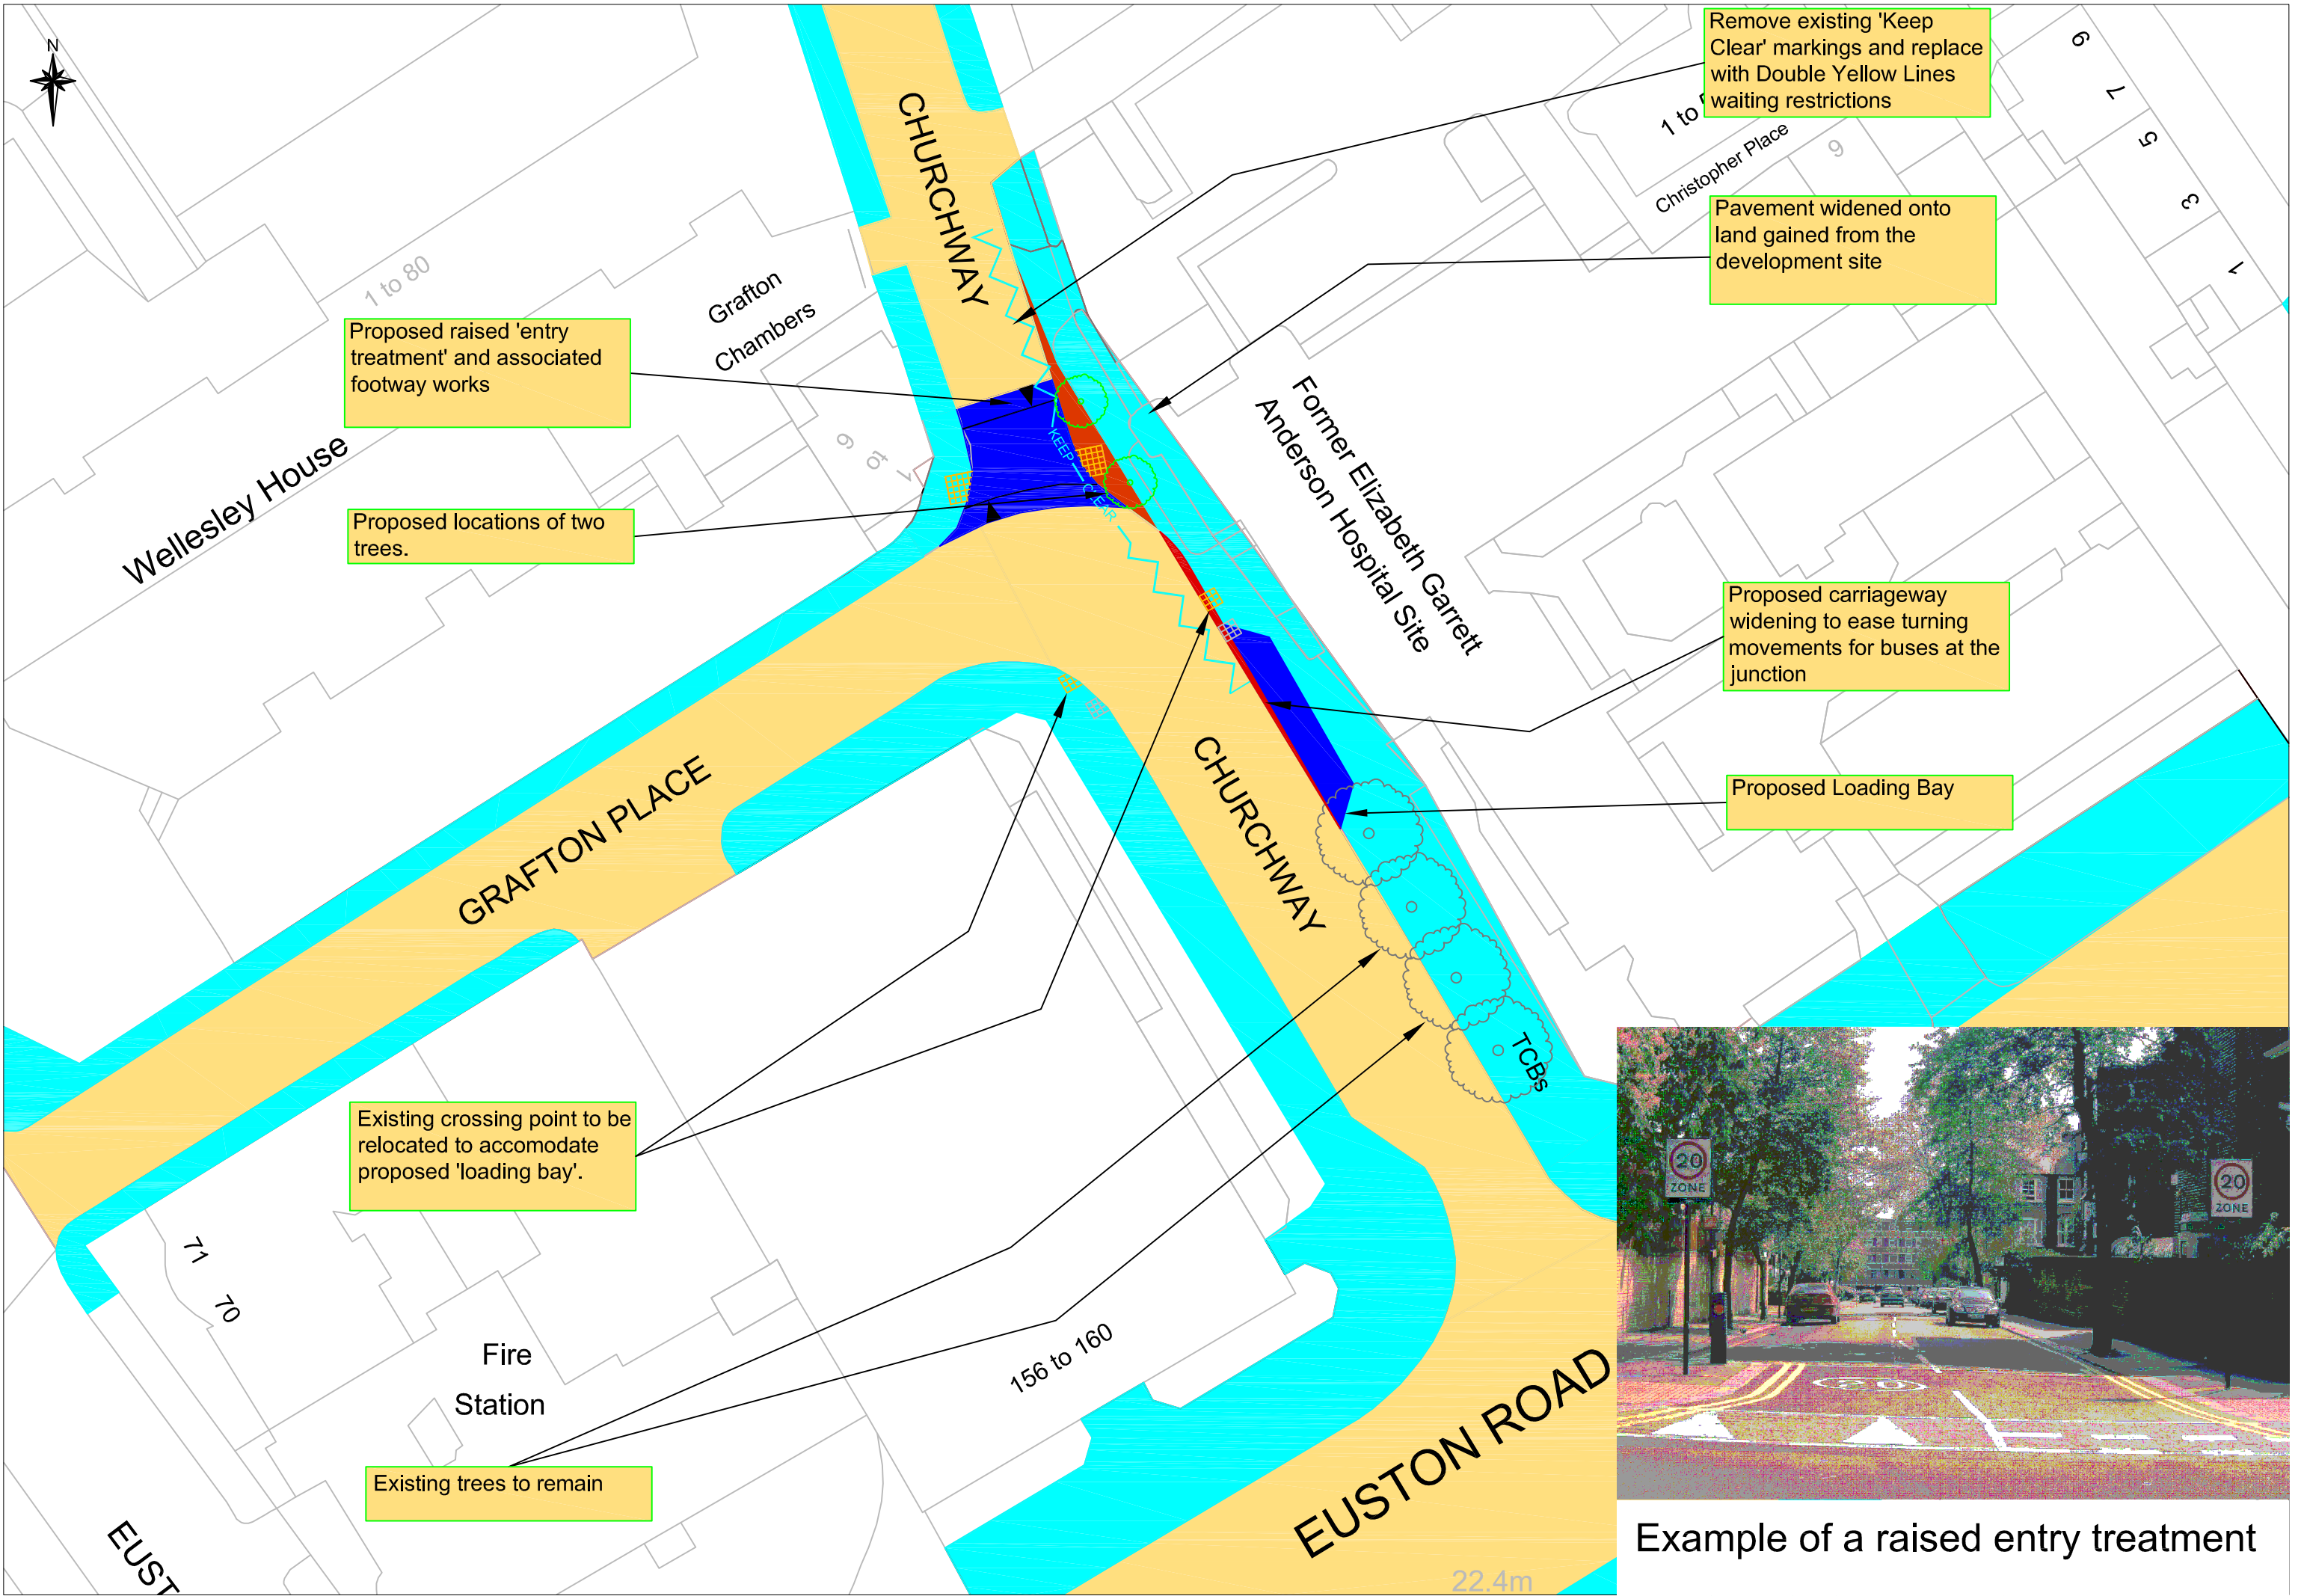

We are proposing the following work and details are included within this consultation:

- Raise the road at Churchway at the junction of Grafton Place. This is to slow down traffic and improve pedestrian safety
- Construct a loading bay on Churchway outside the development for large vehicles who cannot gain access into the development site for loading and unloading.
- Widen the road slightly in order to help buses turn easily at the junction of Churchway and Grafton Place.
- Remove the existing informal crossing point in order to build the proposed loading area for the development. The buses will not be affected by this as the carriageway will be widened to eliminate any interference.
- Remove the existing 'Keep Clear' markings and replace with double yellow lines waiting restrictions.
- Widen the pavement at Churchway outside the development and renew the pavements between Grafton Place and Euston Road.
- Plant two trees as part of the Section 106 contribution available

The proposed measures would provide a more pleasant pedestrian environment. The widened pavements and level crossing point at Churchway junction would reduce traffic speeds and promote pedestrian priority. To assist those with visual impairments, tactile paving would be provided at crossing points in accordance with the Disability Discrimination Act. The traffic calming would also improve the environment for cyclists.

If the proposals are agreed, we hope that work will begin in October 2010. The funding for this work has been secured through contributions from development at 126-144 Euston Road.

The Council would be pleased to hear your views on the proposed measures. Details on how to respond to this consultation are included.

Example of a raised entry treatment

This is your opportunity to comment

We need your views as this consultation exercise is intended to find out if there is broad public support for the proposals set out in this leaflet.

Please complete a questionnaire and return it by **28 July 2010** to: **London Borough of Camden, Culture and Environment Directorate, Engineering Service, FREEPOST ES NW 413/20, London, WC1H 8EQ.** Please note no stamp is required and only **ONE** reply per household, business or organisation will be accepted.

While it will not be possible to reply to you individually, all comments will be taken into account. The Assistant Director of Culture and Environment (Public Realm and Sustainability) will make a decision whether or not to proceed with the scheme and you will be informed of the outcome of this consultation and the Council's decision within three months, where possible.

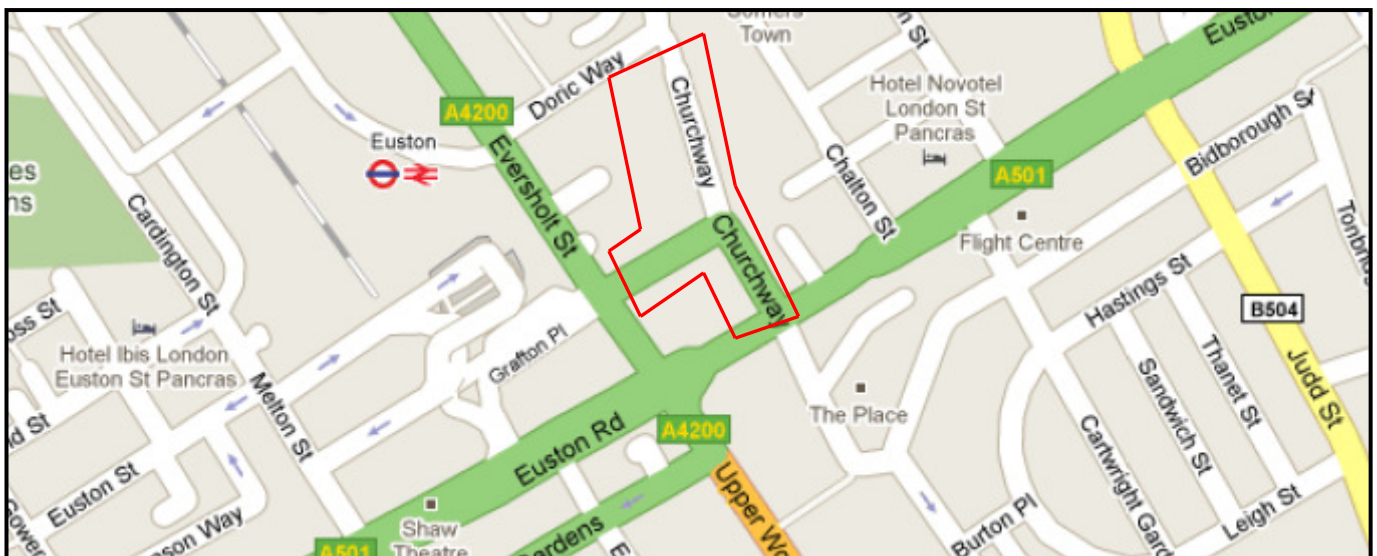

Details of this consultation are also available on the Council's website, www.camden.gov.uk/consultations.

Under the Local Government (Access to Information) Act 1985, we may not treat your questionnaire or letter confidentially, as it will be available for public inspection. Please only write to us about the consultation issue. If you want to comment on any other matter, please use a separate letter.

If you need help in understanding English a First Contact Sheet is enclosed with postal consultations. For on-line consultations, see Camden Consults/Help options. A Monitoring Form for Service Users is included. You do not have to complete it but it will help us monitor our service delivery if you do.

Who is being consulted?

The following are being consulted: All properties within the consultation area outlined in red on the plan, Local and Statutory Groups, Emergency Services and Ward Councillors.

If you would like further information then please contact the following:
