

Autumn Update – Improving the green spaces on your doorstep

● Langdale House

In June 2019 we invited local residents to share their views on new concept designs for local green spaces and gardens at Langdale House. Residents shared their ideas on the new concepts and how these green spaces could be improved.

Based on what you told us we have now refined the concepts and are pleased to share the final designs with you.

If you would like any additional information on these designs please contact us by emailing or calling

✉ greenspaces@groundwork.org.uk

📞 Sandra Hoisz - 0207 278 1514

Please see the designs for the spaces around Langdale Green Space.

If you would like to see all the designs please go to: <https://consultations.wearecamden.org/groundwork/greenspaceimprovements> or contact us and we can send you a copy.

What will happen next?

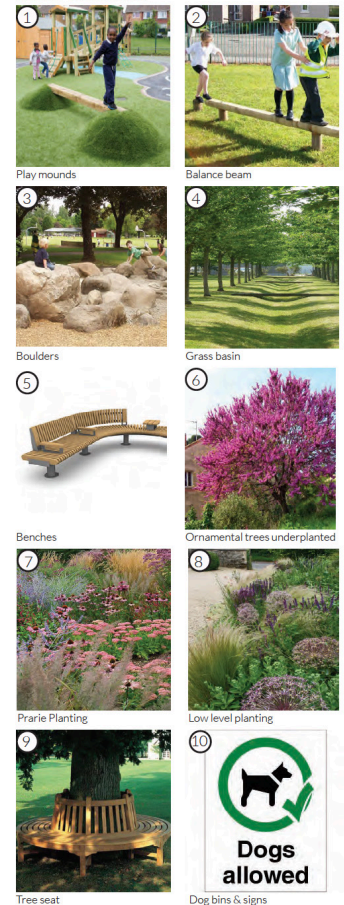

When will improvements be carried out?

The construction works are due to start early 2020. We will keep you updated via newsletters and posters.

LANGDALE GARDENS

EXAMPLE IMAGES:

Improvements to **Langdale Gardens** focus on creating an attractive community space for all residents to enjoy, including a variety of colourful planting, trees, informal play features, such as a balance beam, play boulders and mounds, seating and bins.

Residents asked us to:	How we addressed residents' priorities:
<ul style="list-style-type: none"> • Keep this garden contained so it's good for dog walkers and families • Make the planting more varied • Retain planting by the flats • Provide play opportunities 	<ul style="list-style-type: none"> • We will renew the railings and improve both gates • We have added some informal play within the landscaping and improved planting
