

Camden and Islington

Safeguarding adults partnership boards

Our priorities 2015 - 2018

Keeping people safe from harm

What we think it is important to do
over the next few years

ISLINGTON

Camden

1

Empowerment

People listen to me when I tell them what I want to happen as a result of the safeguarding investigation

We think it is important to

- ask adults at risk how they want to be kept safe

- tell people about new scams and fraud

- help people to share stories and experiences

- listen to what it is like to be safeguarded

2

Prevention

I can have easy read information about

- what abuse is
- how to know when abuse is happening
- what I can do to get help
-

We think it is important to

- have information about how to protect yourself
- deal with bad care before it turns into abuse
- stop people with extreme views from targeting vulnerable people
- learn from serious incidents around the country

3

Proportionality

I know that staff and other professionals will do what I agree is best for me

They will only get involved as much as they need to

We think it is important to

- know about and deal with the risks people face

- deal with serious cases of abuse in the right way

- only take away people's freedoms if we think this is the only way to keep them safe or give them the right care

- help adults at risk and families to find solutions

4

Protection

I get help and support to report abuse

I get help to take part in the safeguarding process as much as I want and am able to

We think it is important to

- look into reports of abuse as quickly as possible

- train staff and volunteers to keep people safe

- help people get their voices heard

- support minority ethnic groups to report abuse

5

Partnership

I know that staff and other professionals keep my personal information private

They only share what is necessary

They work together to get the best result for me

We think it is important to

- develop clear information sharing arrangements

- work more with voluntary organisations

- help GPs, police, and housing to report abuse

- check we have the right people on the board

6

Accountability

I understand the role of everyone involved in my life as someone who uses services

We think it is important to

- help more victims of abuse to get justice

- check care and health services are good enough

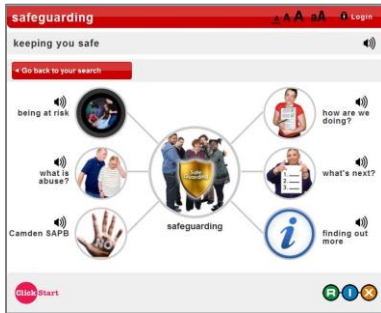

- deal with abusive care and health services

- keep making safeguarding better
