

## Camden's housing register

the register is like a waiting list

We are looking at how we decide who to give housing to in Camden

### Why we need to change how we give people homes

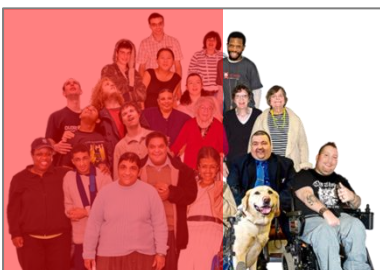

- There is a big waiting list for housing in Camden

- This list gets longer every month

- We will never have enough homes in Camden for everyone on the waiting list

- Many people on the waiting list will never get council housing

- Those people who do get housing can wait 5 years for a place

- Many people on the waiting list do not use the **bidding** system

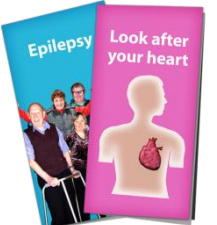

- The way we give people homes at the moment is not working well

- We need to make things work better and save money at the same time

# Questions

	<p><b>Question 1</b> <b>Who should be able to add their name to the housing waiting list?</b> (tick as many as you like)</p>	<input checked="" type="checkbox"/>
	<p>People living in crowded homes where there are not enough rooms for their family</p>	<input type="checkbox"/>
	<p>People who have medical conditions</p>	<input type="checkbox"/>
	<p>People who are living in bad housing</p>	<input type="checkbox"/>
	<p>People who are victims of bullying or violence</p>	<input type="checkbox"/>
	<p>Homeless people</p>	<input type="checkbox"/>
	<p>Anybody who wants to move house</p>	<input type="checkbox"/>

	<p><b>Question 2</b>  <b>How long should people live in Camden before they can add their name to the housing waiting list?</b>          (tick 1 box)</p>	<input checked="" type="checkbox"/>
<p>2009 2010          2011 2012          2013 2014          2015</p>	<p>At least <b>5</b> out of the last <b>7</b> years</p>	<input type="checkbox"/>
<p>2011 2012          2013 2014          2015</p>	<p>At least <b>3</b> out of the last <b>5</b> years</p>	<input type="checkbox"/>
	<p>Neither of these</p>	<input type="checkbox"/>

### Question 3

about medical points

**Example**  
a person who cannot walk lives in a house with lots of stairs and can't go out without help

This person would get the most medical points

(tick 1 box for each question)

Should we give points to people who have a health condition that is made worse by their housing?

Should we give medical points to people whose housing does **not** affect their illness?

Should we give more points to people who are long term carers or who need long term care?

### Question 4

We give people points based on how long they have been on the waiting list

We want to change this so it's based on a person's housing need **as well as** how long they have waited

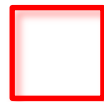

### Example

someone's home is overcrowded and they've been on the waiting list for a long time

(tick 1 box)

Should we give points to people based on their housing need **and** how long they've been on the waiting list?

### Question 5

At the moment we say that children under 5 should sleep with mum and dad

We think they should have their own room

At the moment we say that you can have your own room once you are 16

We think you should carry on sharing with your brother or sister when you are older

(tick 1 box for each question)

Should children under 5 have their own room?

Should you carry on sharing with your brother or sister when you are older?
