

Work has started on **the review of the Camden Local Plan 2017** – the Council's main planning document.

We are keen to hear your views on the current **Camden Local Plan** and understand how you think our policies can most effectively address key issues, such as climate change, the provision of affordable housing, the changing role of Camden's high streets, the creation of safe, strong and open communities, access to green space and job creation and economic development.

To share your views and find out more go to:

[Have Your Say Today - Camden Local Plan Review - Commonplace](#)

The engagement on the Local Plan Review closes on the **13th January 2023**.
