

We're getting real with Greening Phoenix Road and we want you to be a part of it!

# GREENING PHOENIX ROAD NW1

Take part in creating a greener link between Euston and St Pancras Stations and making Phoenix Road an inclusive and vibrant space at the heart of a safe, strong and open community.

In summer 2019, nearly 700 participants shared ideas for greening Phoenix Road and thoughts about key challenges that will need to be addressed. The 2018 feasibility study and the findings from the 2019 community engagement shape this next stage.

There are some exciting opportunities for you to create and trial ideas along Phoenix Road in 2021 as we develop a concept plan.

Sign-up to be a part of it.

## Steps to delivery...

2018

Feasibility study

2019

Community engagement

Dec '20

Concept design process begins

Jan/  
Feb '21
