

We want our streets to have **more safe space** for everyone to walk and cycle, for children to get to and from school **safely and healthily**, for you to be **breathing cleaner air**, to **reduce carbon emissions** from vehicles and for businesses to **flourish**.

We want our communities to be prepared for the changing climate and provide a lasting legacy of **greener, safer and healthier travel with streets resilient against climate change**.

New rain gardens for Parliament Hill

In October we consulted on whether to add 2 rain gardens on Parliament hill to capture and store rainwater, act as great local habitats for wildlife, and improve the look and feel of the area. Thank you to everyone who took the time to share their views. We had 55 responses and have now decided to go ahead with the installation. Construction on the rain gardens will start on 6 November and is due to be completed by the end of November 2023.

We know how important it is to reduce disruption through roads being dug up so we are working in partnership with Cadent Gas to add in the new rain gardens while they carry out their own work to upgrade metal gas pipes to safer and more reliable plastic pipes. This will save 2 weeks of disruption. Cadent's work begun 16 October and they will also write to you on what their work will include. Cadent aim to be finished in early December 2023.

Marlborough Highways are the contractor for the rain gardens and will endeavour to keep disruption to a minimum but some increase in noise, vehicles and pedestrian movements cannot be avoided. If you have any questions about the scheme, please speak to the supervisor on site or online via: marlboroughhighways.co.uk/general-enquiry Select 'Parliament Hill, Camden' from the drop down list and they will respond promptly.

You can also contact the contractors on 020 7739 2976 and on 0800 246 1302 out of hours (Monday to Friday 5pm – 9am Saturday and Sunday).
